DATATELLIGENT PLATFORM

Unified Data Solutions

Unify data seamlessly from multiple source systems and third-party data into a single Data Lake for easy access. Our automated Data Pipelines provide regular data updates from sources. Integrated Data Sets with pre-defined key metrics feed interactive analytic solutions.

Analytic Solutions

Interactive, visual solutions with key metrics and trends to enable data-informed decisions. Our customizable suite of solutions provides insights into your business. Solutions can include budget forecasting, engagement analytics, customer trends and success, sales funnel analysis, and AI-assisted solutions.

Data Team

Use our team of experts for custom development projects, including customer-defined projects, custom data lake or analytic solutions, and advisory services such as Data Analytics Maturity Roadmap and AI Readiness and Roadmap.
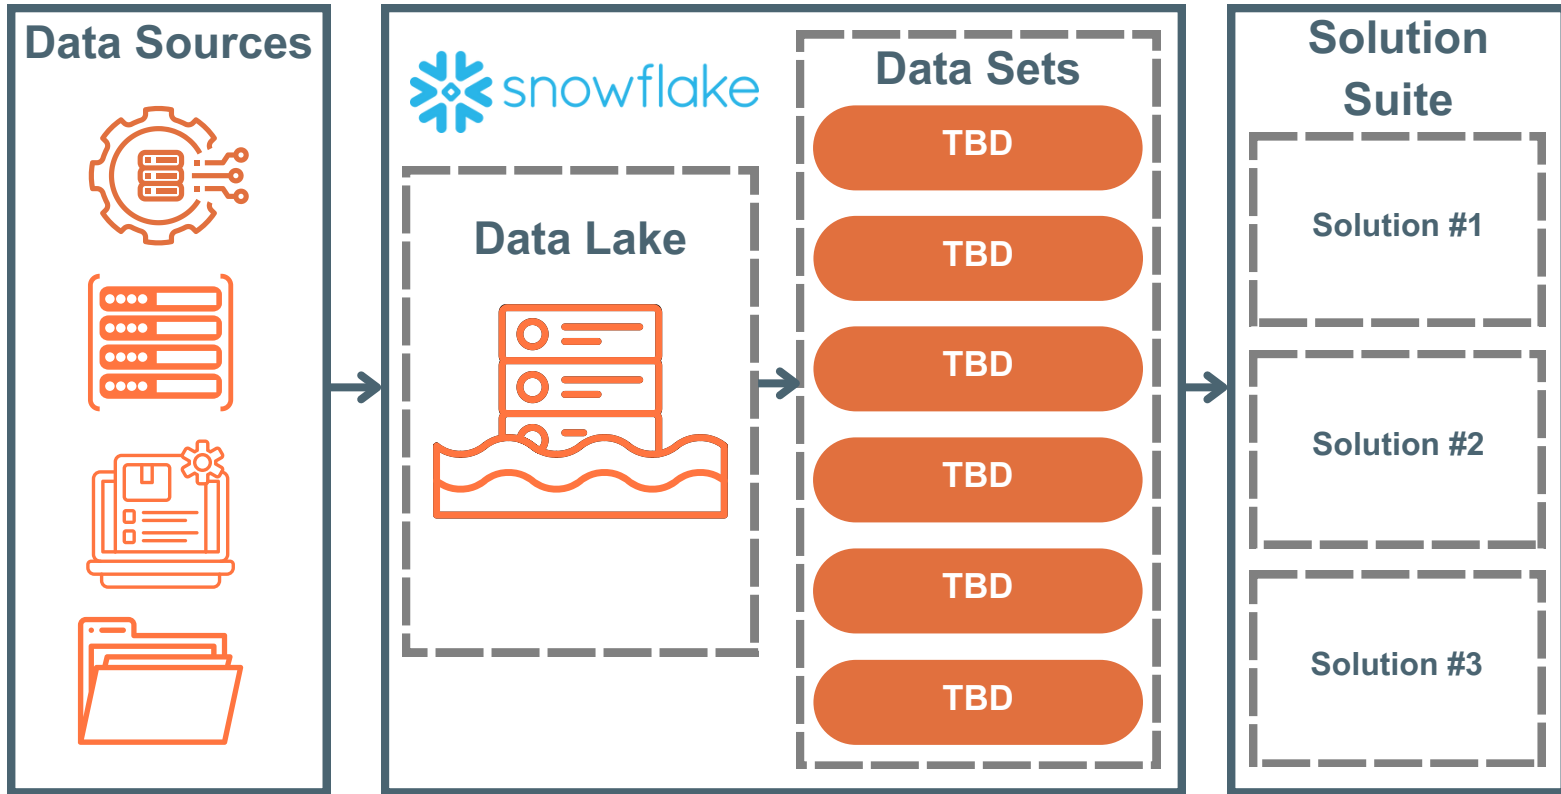

Our Platform

Our Platform combines the power of the Snowflake Data Cloud with the Datatelligent Data and Analytic solutions to provide your company with the tools you through your journey

Together, we can help you:

- Access a unified data platform for a single source of truth for data across your institution
- Create custom data sets tailored to utilize the data you want to see
- Gain actionable insights using visualization tools to boost your data analytics and become data-informed
- Grow your company's data maturity

End-to-end solutions for Your Data and Analytic Needs

- Using the power of Snowflake, data from your source systems and third-party sources can be combined into one location to serve as a single source.
- Datatelligent Datasets are customized based on your needs to help track your most important metrics.
- The Datatelligent suite of Analytical Solutions helps bring data to life with Data Visualization tools. We customize the analytics to target what is most important to your business.

ABOUT US

Datatelligent

Datatelligent gives data purpose.

We enable the use of data to make our communities better. Our mission is to use our unique approach, to help remove barriers for organizations to make data-informed decisions.
